How can I tell if a product might be toxic?

Safety · https://danielsmith.com/docs/how-can-i-tell-if-a-product-might-be-toxic/

We list pertinent product safety information on our labels:

- AP means Approved
- CL means Caution Label
- PROP 65 refers to warnings required by the state of California

Review our Safety Data Sheets (located on our website under Resources) for more details. If and when government regulation(s) for product safety change, we update the SDS and labels accordingly.
